Thirty-one Loudoun-based businesses made Inc. magazine's 2018 list of the fastest-growing companies in America. This is the largest number of Loudoun companies on the list on record.

"Congratulations to all of the great local companies on this list. Loudoun County has worked hard to create the environment where businesses can thrive. The exponential growth of our companies resonates as further proof that, for any kind of company, business success is #LoudounPossible," said Loudoun Economic Development's Executive Director, Buddy Rizer.

been truly amazed by the amount of support we’ve received from our community and the incredible hard work and dedication our team shows day after day. We’re thrilled that this support and dedication is being recognized with Stone Tower at number 755 on the Inc. list this year.”

At the top of the Loudoun list is FedBiz IT Solutions, which is #116 of the 5,000 fastest-growing companies in America. This is FedBiz’s third year in a row making the list. The magazine quoted its CEO Nina Tiaga as stating, “We are so proud to again be featured on #Inc5000; it shows our customers that we are continually growing to better serve them and their goals.”

Although the majority of the 31 Loudoun companies on the list are tech-related or government contractors, there are a variety of other types of businesses represented.

“This list reflects the diversity of Loudoun’s overall employer base,” Rizer said, pointing to first-timer Paramount Business Jets, which offers private flights to any city in the world with as little as four hours’ notice; Core Nutritionals, a supplement manufacturer making its third appearance on the list, and five-time Inc. 5000 honoree WheelsOnSite USA, which is a wheel reconditioning service.
